

Amendments to the Claims:

This listing of claims will replace all prior versions, and listings, of claims in the application.

Listing of Claims:

Claim 1 (currently amended). A medical gown, comprising a nonwoven compound fabric,

said nonwoven compound fabric comprises a nano-denier barrier layer comprising a plurality of continuous thermoplastic filaments, formed by direct spinning, having a denier of less than about 1000 nanometers; a secondary barrier layer selected from the group consisting of: meltblown fibers, microporous films, and monolithic films;[] and a substrate layer.

Claim 2 (currently amended). A medical drape, comprising a nonwoven compound fabric,

said nonwoven compound fabric comprises a nano-denier barrier layer comprising a plurality of continuous thermoplastic filaments, formed by direct spinning, having a denier of less than about 1000 nanometers; a secondary barrier layer selected from the group consisting of: meltblown fibers, microporous films, and monolithic films;[,] and a substrate layer.
